

## PARENT POWER DVD

### Effective, Peaceful Discipline Strategies for Children 2-12

Realistic expectations, mutual respect, encouragement, communication skills -- these form a framework for building cooperation and responsibility in children. Within this framework I discuss positive and effective methods of discipline. Effective discipline helps children learn how to cooperate with others. Ultimately our goal is to teach our children how to manage their own behavior without our intervention.

In the workshop presented on the DVD, I discuss specific ways to accomplish this goal. You will witness an actual live parenting seminar that is FUN and interactive, and will address your most burning parenting questions:

- How do I effectively discipline my child without yelling, spanking or upset?
- How do I teach my child to respect me without using fear tactics?
- How do I set the stage to raise a child who thinks independently, feels self-confident and has self-control?

To order, detach form below and mail check payable to Parent Assist to: Robin Kevles-Necowitz, Parent Assist, 301 Oxford Valley Rd, Suite 1901B, Yardley, PA 19067. For more information call 215-321-4411 or [Robin@ParentAssist.net](mailto:Robin@ParentAssist.net)
